

Lyrics

Grow

Come sing with us!

Grow your own, grow your own
Plant a little garden round your home
Save your seeds like precious stones
Dig a hole, and grow your own

Seedlings on the window sill
The fresh spring air is calm and still
A pile of dirt on a plot of land
We've got everything we need in our hands

Grow your own, grow your own
Plant a little garden round your home
Save your seeds like precious stones
Dig a hole, and grow your own

Line them up in little rows
Take your time, coz plants move slow
Pour a little drink from the watering can
We've got everything we need in our hands

Grow your own, grow your own
Plant a little garden round your home
Save your seeds like precious stones
Dig a hole, and grow your own

Sprouting up and rooting down
Reach for the sky but hold your ground
Seasons turn and life is a dance
We've got everything we need in our hands

Grow your own, grow your own
Plant a little garden round your home
Save your seeds like precious stones
Dig a hole, and grow your own
