### End of the Day

Come sing with us!

Mmmmmmm...

We're coming to the end of the day  
The sun is slowly fading away  
The one thing that I've got left to say  
Is that I love you

We're coming to the end of the road  
So hurry up and take it slow  
The one thing that I want you to know  
Is that I love you

Mmmmmmm...

We're coming to the end of the day  
The sun is slowly fading away  
The one thing that I've got left to say  
Is that I love you

The one thing that I've got left to say  
Is that I love you
