

Lyrics

That's the Magic

Come sing with us!

When I see a shining star
I make a wish inside my heart
A little love goes out to you
That's the magic of a wish come true

Fa la la la la
Fa la la la la
It's the longest night
Fa la la la la
The shortest day of the year
Fa la la la la
The north star shines bright
Fa la la la la
The holidays are here

When I see a shining star
I make a wish inside my heart
A little love goes out to you
That's the magic of a wish come true
That's the magic
That's the magic of a wish come true

Fa la la la la
Fa la la la la
I hear the sound of joy
Fa la la la la
And peace on earth
Fa la la la la
Bells ringing out
Fa la la la la
All over the world

When I see a shining star
I make a wish inside my heart
A little love goes out to you
That's the magic
That's the magic
When I see a shining star
I make a wish inside my heart
A little love goes out to you

That's the magic of a wish come true
(That's the magic)
That's the magic of a wish come true
(That's the magic)
That's the magic of a wish come true
