

Lyrics

Over the Moon

Come sing with us!

Over the moon
I'm flying over the moon
Over the moon, under the stars with you

Over the moon
I'm smiling over the moon
Over the moon, under the stars with you

Tell me something I don't know
How big is big, how small is small?
A tiny drop in the milky way
Is all we got and that's a lot man!

Over the moon
I'm flying over the moon
Over the moon, under the stars with you

Tell me something I don't know
How big is big, how small is small?
A tiny drop in the milky way
Is all we got and that's a lot man!

Over the moon
I'm flying over the moon
Over the moon, under the stars with you

I'm over the moon, under the stars with you
