

Lyrics

Paper Heart

Come sing with us!

I'll make you a paper heart
Just for being who you are
Friendship is a work of art
I'm going to make you a paper heart

Love is a sprinkler in the sun
It will keep you cool with everyone
Love is a language that you learn
So you can talk without using words

I'll make you a paper heart
Just for being who you are
Friendship is a work of art
I'm going to make you a paper heart

Love is a warm breeze on the lake
It'll fill your sails and carry you away
Love is an ice cream that's for sure
Even if you're full you can take a little more

I'll make you a paper heart
Just for being who you are
Friendship is a work of art
I'm going to make you a paper heart

I'll make you a paper heart
Just for being who you are
Friendship is a work of art
I'm going to make you a paper heart
I'm going to make you a paper heart
