

Lyrics

Stink Bug

Come sing with us!

I love green bugs and pink bugs
My favourite bugs are stink bugs
Hey, stink bug, come out and play with me

Climb into my glass jar
I'll feed you a peach
I think you stink, nudge nudge, wink wink
Take a bath or hit the beach

I love green bugs and pink bugs
My favourite bugs are stink bugs
Hey, stink bug, come out and play with me

I'll feed you my apple
Give you some of my pear
You stinky stinker, son of a stink bug
Stinkin' up the atmosphere

I love green bugs and pink bugs
My favourite bugs are stink bugs
Hey, stink bug, come out and play with me

Do you want to play my guitar
Do you want to play my bass
Stink bug, you can cut a stink rug
And dance into outer space

I love green bugs and pink bugs
My favourite bugs are stink bugs
Hey, stink bug, come out and play with me
Hey, stink bug, come out and play with me
Hey, stink bug, come out and play with me
