

Lyrics

I Want to Wish

Come sing with us!

I want to wish you Happy Christmastime, my friend
I want to wish you Happy Hanukkah as well
I want to wish you Happy Holidays with love
Peace and joy for everyone

Snow is falling from the sky and
I can feel the spirit's high so
I just want to sing a happy tune
Trim the tree, oh I adore the
Candlelight from the menorah
Underneath the winter solstice moon

I want to wish you Happy Christmastime, my friend
I want to wish you Happy Hanukkah as well
I want to wish you Happy Holidays with love
Peace and joy for everyone

Wonder where those wishes go
Maybe to the cold north pole
Maybe up in space with the satellites
One thing I know that's for sure
A wish can travel around the world
And make the hearts of everyone shine bright

I want to wish you Happy Christmastime, my friend
I want to wish you Happy Hanukkah as well
I want to wish you Happy Holidays with love
Peace and joy for everyone
