

Lyrics

Stop, Look and Listen

Come sing with us!

Stop, look and listen
Make a good decision
Before your feet hit the street you gotta
Stop, look and listen

Uptown, downtown, small town, big town
No matter where you live
There's a road to get around
We gotta share the space
And look out for each other
On a scooter or a bike, with a sister or a brother
Life moves fast on the busy busy street
There's a rhythm you can follow
So listen to the beat
When you get to the corner
Where the sidewalk ends
You gotta stop, look and listen

Stop, look and listen
Make a good decision
Before your feet hit the street you gotta
Stop, look and listen
Before your feet hit the street you gotta
Stop, look and listen

Red light stop. Green light go!
That's the way that the traffic flows
Everybody follows the same simple rules
To get to work, to get to school
Life moves fast on the busy busy street
There's a rhythm you can follow
So listen to the beat
When you get to the corner
where the sidewalk ends
You gotta stop, look and listen

Stop, look and listen
Make a good decision
Before your feet hit the street you gotta
Stop, look and listen
Before your feet hit the street you gotta
Stop, look and listen

Stop, look and listen
Make a good decision
Before your feet hit the street you gotta
Stop, look and listen
Stop, look and listen

Make a good decision
Before your feet hit the street you gotta
Stop, look and listen
Before your feet hit the street you gotta
Stop, look and listen
