

Lyrics

Yesterday Today and Tomorrow

Come sing with us!

Yesterday, today and tomorrow

Before we went to sleep last night
That was yesterda-a-ay
Before we closed our eyes
That was yesterda-a-ay
Looking back on where we've been
Memories of things we've seen
Before we went to sleep last night
That was yesterday

Yesterday, today and tomorrow
Life is like a path you follow
Looking back, look around, look forward
Yesterday, today and tomorrow

We're singing a song right now
It's today, it's today
We're making a beautiful sound
It's today, it's today
Looking around at the place we're in
Together in song, together as friends
We're singing a song right now
It's today, it's today

Yesterday, today and tomorrow
Life is like a path you follow
Looking back, look around, look forward
Yesterday, today and tomorrow

We will go to sleep tonight and
When we wake up, it'll be tomorrow
We will wish each other good night
When we wake up, it'll be tomorrow
Looking forward to something new
Making plans for things to do
We will go to sleep tonight
When we wake up it'll be tomorrow

Yesterday, today and tomorrow
Life is like a path you follow
Looking back, look around, look forward

Yesterday, today and tomorrow
