### Friend Ships

Come sing with us!

There are tall ships on the ocean blue  
Space ships that fly to the moon  
Take me away, I want to be  
On the friend ship that brings you to me

Let's be friends  
Let's be friends  
Take my hand and  
Let's be friends

There are tall ships on the ocean blue  
Space ships that fly to the moon  
Take me away, I want to be  
On the friend ship that brings you to me

Let's be friends  
Let's be friends  
Take my hand and  
Let's be friends

There are tall ships on the ocean blue  
Space ships that fly to the moon  
Take me away, I want to be  
On the friend ship that brings you to me

Let's be friends  
Let's be friends  
Take my hand and  
Let's be friends
