

Lyrics

Primary Colours

Come sing with us!

Red and yellow and blue
Red and yellow and blue
Primary colours on the crew, we got
Red and yellow and... blue

I got three colours to share with you
Red, yellow... and blue
Mix them together, two at a time
You make new colours, give it a try!

Yo check the mic, now check your head
If you take a little yellow,
and you take a little red
They go together like sugar and porridge
And when you're done
you get the colour ORANGE!

Red and yellow and blue
Red and yellow and blue
Primary colours on the crew, we got
Red and yellow and... blue

Now here's a little story I got to tell
About two colours you know so well
It started way back in art history
With the colour of the sun
and the colour of the sea

I'm talking 'bout yellow, I'm talking 'bout blue
One is warm and the other is cool
They go together like ice and cream
And when you're done you get the colour GREEN!

Red and yellow and blue
Red and yellow and blue
Primary colours on the crew, we got
Red and yellow and... blue

There's a colour combination we still gotta do
It's a sweet sensation, red plus blue
Mix them together around in a circle
And when you're done you get the colour PURPLE!

Jazzy?
Jeremy?
What do you think...
...could we put 'em all together in the kitchen sink?

Let's see what happens, mix it around
Red and yellow and blue make...BROWN!

Red and yellow and blue
Red and yellow and blue
Primary colours on the crew, we got
Red and yellow and... blue

Red and yellow and blue
Red and yellow and blue
Primary colours on the crew, we got
Red and yellow and... blue
