Watch What You Wish For

Come sing with us!

Watch what you wish for
Be sure to think it through
Watch what you wish for
Your dreams just might come true

Walking down the seaside
On a sunny summer day
There I meet a little mermaid
In Bonavista Bay
I ask if she grants wishes
Indeed, she says, I do (I do!)
But before you tell me what you want
I have a song for you, (Jazzy laughs) it goes:

Watch what you wish for
Be sure to think it through
Watch what you wish for
Your dreams just might come true

Right away I answer that
I just want to be rich
She flips her tail, says 'here you go'
But I feel no different
I reach down deep in my pockets
And they fill right up with gold
My poor old pants fall to the ground
Easy come, easy go!

Watch what you wish for
Be sure to think it through
Watch what you wish for
Your dreams just might come true

Standing there in my underwear
All the people gather round
There's so much gold and it starts to roll
These coins are water bound!
I lose almost everything, but for one coin in my hand
I give it to the tailor so he can make a sailor
A pair of brand new pants

Watch what you wish for
Be sure to think it through
Watch what you wish for
A wish can turn on you
Watch what you wish for
Be sure to think it through
Watch what you wish for
Your dreams just might come true
