### School Bus

Come sing with us!

I'm gonna ride the school bus  
Coming around the bend  
I'm gonna ride the school bus  
Together with my friends

I'm gonna ride the school bus  
Coming around the bend  
I'm gonna ride the school bus  
Together with my friends

We can see the flashing lights  
Shining on the bus so bright  
Open the door, say hello  
Everybody in come on let's go!

I'm gonna ride the school bus  
Coming around the bend  
I'm gonna ride the school bus  
Together with my friends

I'm gonna ride the school bus  
Coming around the bend  
I'm gonna ride the school bus  
Together with my friends

We can see the flashing lights  
Shining on the bus so bright  
Open the door, say hello  
Everybody in come on let's go!

We can see the flashing lights  
Shining on the bus so bright  
Open the door, say hello  
Everybody in come on let's go!

I'm gonna ride the school bus  
Coming around the bend  
I'm gonna ride the school bus  
Together with my friends

I'm gonna ride the school bus  
Together with my friends!
