

Lyrics

Aurora Borealis

Come sing with us!

Aurora Borealis
There's magic in the northern lights

Some say they're spirits
It's the circle of life
Some say a fire fox is
Racing through the night
Some say it's a reflection,
A fire built long ago
And I think it's a work of art
Shining on the snow

Aurora Borealis
Dancing in the sky
Aurora Borealis
There's magic in the northern lights

When particles of sunlight
Hit our atmosphere
Then earth's magnetic field
Protects us like a shield
Sending the energy
Up to the north pole
And It becomes a work of art
Shining on the snow

Aurora Borealis
Dancing in the sky
Aurora Borealis
There's magic, there's magic
Aurora Borealis
Dancing in the sky (in the sky)
Aurora Borealis
There's magic in the northern lights
