

Lyrics

Alien Robot Dance

Come sing with us!

Let's play, pretend that we're in space
Let's dance, shake your body with the bass
Let's spin, like a planet 'round the sun
Move it to the beat, have a little fun (and)

Everybody dance like an alien robot
Everybody dance like an alien robot

I had a dream in outer space
I was moon-walkin' all over the place
Looking for a friend, some-something to do
I was lonely with an incredible view
Out of the blue, or dark, I guess
I heard a sound, someone in distress
Flew real fast, took a chance
It was an alien that knew how to dance

Let's play, pretend that we're in space
Let's dance, shake your body with the bass
Let's spin, like a planet 'round the sun
Move it to the beat, have a little fun

Everybody dance like an alien robot
Everybody dance like an alien robot
Show me how you move, give it all you got
Everybody dance like an alien robot

Holy hotdogs, what do you know?
We became good friends movin' in slo mo
Zero gravity in the galaxy
Take a rocket if you wanna move fast like me
Zoom zoom zoom, fly around the moon
Check the time coz I gotta be home by noon
But I won't forget the new friend I met
That superstar robot alien

Let's play (let's play), pretend that we're in space
Let's dance (let's dance), shake your body with
the bass
Let's spin (let's spin), like a planet 'round the sun
Move it to the beat, have a little fun

Everybody dance like an alien robot
Everybody dance like an alien robot
Show me how you move, give it all you got
Everybody dance like an alien robot

Let's play (everybody dance), pretend that we're
in space
Let's dance (everybody dance), shake your body
with the bass
Let's spin (let's spin), like a planet 'round the sun
Move it to the beat, have a little fun

Alien robot
