### Bubbles

Come sing with us!

Bubbles, bubbles  
Blowin' away our troubles  
Never gonna stop, whenever they pop  
We'll just make more bubbles

Always do your best  
Stick to the golden rule  
That means treating friends  
The way you want them treating you

I will pick you up  
When you're feelin' down  
We're better together, find a way  
To turn this day around

Bubbles, bubbles  
Blowin' away our troubles  
Never gonna stop, whenever they pop  
We'll just make more bubbles

You walk in my shoes  
I will walk in yours  
Maybe we'll understand  
Each other a little bit more

I will share with you  
You can share with me  
We're better together, you and I got  
Everything we need

Bubbles, bubbles  
Blowin' away our troubles  
Never gonna stop, whenever they pop  
We'll just make more bubbles

Bubbles, bubbles  
Blowin' away our troubles  
Never gonna stop, whenever they pop  
Never gonna stop, we're never gonna stop with  
Bubbles, bubbles  
Blowin' away our troubles  
Never gonna stop, whenever they pop  
We'll just make more bubbles

Never gonna stop, whenever they pop  
We'll just make more bubbles
