

Lyrics

See You Later, Alligator

Come sing with us!

It's hard to say goodbye
When you're having fun
The work of being friends
Is never really done
It's hard to say goodbye
And fly away like birds
Maybe we should try
To make a play on words

See ya later, alligator (bye bye, alligator)
After a while, crocodile (so long, crocodile)
Here's a hug, ladybug
You always make me smile
Hit the road, little toad
In a shake, rattlesnake
Bye bye, butterfly
Toodle-oo for goodness sake

It's hard to say goodbye
When you're having fun
The work of being friends
Is never really done
It's hard to say goodbye
And fly away like birds
Maybe we should try
To make a play on words

See ya soon, raccoon
'Til then, little hen
Move quick, baby chick
Be seeing you then

Gotta go, buffalo
Take care, polar bear
Good chat, kitty cat
Take a hike to anywhere

It's hard to say goodbye
When you're having fun
The work of being friends
Is never really done
It's hard to say goodbye
And fly away like birds
Maybe we should try
To make a play on words

See ya later, alligator (bye bye, alligator)
After a while, crocodile (so long, crocodile)
Let's hang out soon (here's a hug, ladybug)
You always make me smile
