

## Lyrics

### Trash and Treasure

Come sing with us!

One person's trash is another one's treasure  
Take a broken thing and put it back together  
Give a second chance, make it even better  
One person's trash is another one's treasure

We found a chair at the side of the road  
Had a broken leg no one wanted anymore  
A couple of tools, some glue and screws  
Made it even stronger than when it was brand new

One person's trash is another one's treasure  
Take a broken thing and put it back together  
Give a second chance, make it even better  
One person's trash is another one's treasure

We found a bike at the side of the road  
Had a broken wheel, no one wanted anymore  
Took it to the shop, replaced one part  
Now it's a speedy little work of art

One person's trash is another one's treasure  
Take a broken thing and put it back together  
Give a second chance, make it even better  
One person's trash is another one's treasure

One person's trash is another one's treasure  
Take a broken thing and put it back together  
Give a second chance, make it even better  
One person's trash is another one's treasure  
One person's trash is another one's treasure
