

## Lyrics

### The Wheels on My Bike

Come sing with us!

The wheels on my bike go all around  
All around, all around  
The wheels on my bike go all around  
All around town

It's another sunny day in Tin Pan Valley  
And we're going to the city for a big bike rally  
I packed my knapsack with stacks of snacks  
I got a need for speed, pedal to the max

There's gonna be a race and I'm in it to win it  
I'm settin' the pace when my wheels start spinnin'  
Everybody line up across the row  
On your mark, get set, ready -- GO!

The wheels on my bike go all around  
All around, all around  
The wheels on my bike go all around  
All around town

We hit the first turn and I ring my bell  
People cheering on, I can hear them yell  
Try hard as I can, having fun is the plan  
I'm just happy when I'm riding 'round town  
with my friends

On to the straight-away, I'm pulling a wheelie  
Front wheel up, it's an incredible feeling  
I get a sudden burst of energy  
And like Captain Kirk, I'm going into warp speed!

The wheels on my bike go all around  
All around, all around  
The wheels on the bike go all around  
All around town  
The wheels on the bike go all around  
All around, all around  
The wheels on the bike go all around  
All around town

Ring your bells!

Everybody's tires are starting to squeal  
We're neck and neck, and even wheel to wheel  
Pedal so fast, it's a circular blur  
And we're having a blast, yeah, that's for sure

On the homestretch it's anybody's race  
Riding to the end with a smile on my face  
Take a photo for the finish, it looks like a tie  
But first place goes to Turtle and Guy!

The wheels on my bike go all around  
All around, all around  
The wheels on my bike go all around  
All around town  
The wheels on my bike go all around  
All around, all around  
The wheels on my bike go all around  
All around town
